EDUCATION

University of Wisconsin-Madison | Madison, WI May 2027
Bachelor of Science: Computer Science & Data Science, Certificate in Leadership

- GPA: 3.92/4.0
- Honors: Ralph B. Abrams Scholarship, Malaysia Government Scholarship, 5x Dean's List (2023-2026)
- Relevant Coursework: Algorithms (CS 577), Big Data System (CS 544), Artificial Intelligence (CS 540), Building User Interface (CS 571), Mobile Systems and Applications (CS 407), Data Science Programming II (CS 320)

EXPERIENCE

UW-Madison Facilities Planning & Management | Madison, WI March 2026 – Present
Business Analytics Assistant

- Developed an AI chatbot for internal document search using Streamlit, Azure, ChromaDB, and Gemini
- Automated QA workflows by building Power Apps integrated with SharePoint, Power Automate, and AssetWorks
- Integrated Power BI with ArcGIS spatial data to forecast hiring and optimize predictive maintenance

People and Robots Laboratory | Madison, WI March 2026 – June 2026
Undergraduate Robotics Research Assistant

- Engineered an intuitive user interface for Temi robotics systems using Kotlin under Dr. Bilge Mutlu
- Analyzed 200+ hours of experimental interaction metrics to refine data collection protocols and support research
- Deployed Kotlin software for trials with 500+ participants, optimizing robotic navigation and social behaviors

PROJECTS

Festify | Madison, WI | *Kotlin, Jetpack Compose, Firebase, MVVM, Hilt*

- Engineered an Android social platform enabling users to organize, publish, and RSVP to real-time local events
- Integrated Firebase Suite (Auth, Firestore, Storage) via repository pattern for secure data authentication
- Implemented dependency injection using Hilt to decouple ViewModels and Repositories for testability

Generative AI Medical Assistant (NSDC Data Science Project) | *Python, PyTorch, Llama-2, RAG, QLoRA, Streamlit*

- Built an automated data pipeline to ingest, validate, and process unstructured medical datasets
- Developed an interactive Streamlit dashboard to display real-time performance metrics and model insights
- Optimized data processing workflows to run efficiently on constrained hardware constraints

LEADERSHIP & INVOLVEMENT EXPERIENCE

International Student Services | UW-Madison | Madison, WI Jan 2026 – Present
International Peer Mentor

- Mentored a cohort of 10 international students, facilitating their academic and social transition to UW
- Connected mentees with campus resources and organize activities to foster community and belonging
- Provided peer guidance on academics, campus resources, and student involvement

International Student Services Advisory Board | UW-Madison | Madison, WI May 2025 – Present
Chair of the Student Representative

- Led representation of over 6,000 international students in strategic discussions with ISS and campus leadership
- Championed the adoption of the QLess queue system, improving advising efficiency and accessibility for students
- Selected candidates for the Senior International Student Advisor hiring committee, providing student input

SKILLS

Data Analysis: Python (Pandas, Polars, NumPy), SQL, Microsoft Excel (Advanced), R
Programming: Java, Kotlin, C/C++, JavaScript, HTML/CSS, React, React Native, TypeScript, Tailwind
Tools: Git/GitHub, Docker, Linux/Bash, Figma, JUnit, ChromaDB, Power Platform, Streamlit
Languages: English (Fluent), Bahasa Malaysia (Native)
